

WCB 2010

WORKSHOP ON CONSTRAINT BASED METHODS FOR BIOINFORMATICS

1993 (WELP)

2010 (WCB)

WCB 2010

A SUCCESS

- Even if scheduled at the very end of FLOC, we have
- ≥ 21 registered participants (one coming in motorbike from Italy) plus others in room.
- 9 papers, 1 invited (+ the invited talk of Fages at ICLP and a paper on protein structure prediction at ICLP awarded as best paper)
- This is the 6th consecutive edition
- In 2008 we co-edited a special issue of Constraints including selected revised papers from WCB06, and WCB07 (plus other papers)
- If you agree, we can organize a new special issue
- The call for papers will be “open” but all authors of WCB will be directly invited.
- We'll choose carefully the journal

- WCB05–11 colocated with CP, ICLP, and CPAIOR (Sitges–Spain, Nantes–France, Porto–Portugal, Paris–France, Lisbon–Portugal, Edinburgh–Scotland)
 - ICLP11 will be in Kentucky (Lexington) in July, CP11 in Italy (Perugia) in September, CPAIOR in Berlin (Germany) in May.
 - The majority of participants were from Europe but also the meetings were all in Europe. Things could change radically if in USA.
-
- All editions were organized (co-chaired) by a subset of {Backofen, Dal Palù, Dovier, Fages, Will}
 - Other volunteers for the next issue are welcome! If in Perugia there is one. No need of deciding today. Please think on it and wrote us.
